

Fronter Training Package

Secondary School

The Secondary School training package consists of the following elements:

- half day consultant visit to discuss the implementation plan for the school with the senior leadership team and the potential impact that the development will have
- on-site training day for up to ten staff in using Fronter for teaching and learning*
- two staff attend a centrally provided training day in Fronter administration*
- two half day visits to the school to follow up issues, provide further guidance and support the embedding of Fronter within the school.
- 1 day centrally provided update in year 2 for a designated member of staff
- access to facilitated Fronter user group sessions which are planned to take place at least twice a year.

*It is recommended that the Fronter lead practitioner and Fronter administrator attend both of the courses.

The school will need to provide ICT facilities with internet connection for the on-site training.

Additional Training

Further Fronter support and training will be available to schools at standard traded rates for Surrey schools.

Please contact Ingrid Lucas, ingrid.lucas@vtplc.com if you wish a member of the VT Four S ICT Team to contact you about any aspect of the training.
